## References

Joe

Technical Support Manager at Rackspace

“

Tom Kodesh is a high performing individual with self-discipline and self-motivation as a personal driver. I would add Tom to my team if the opportunity presented it's self again. His knowledge as a Linux Engineer exceeds many of his peers and he still works with those needing to bridge their OS knowledge gaps. A true team player and an asset to any team that takes him on-board.

Mark

Maintenance Team Linux System Administrator at Rackspace

“

Tom is a great asset and all-star to any team! Highly motivated, knowledgeable, and self disciplined. When a question or issue arose I did not hesitate to ask Tom for assistance as he is very approachable and willing to help.

Ben

Linux Enterprise Support Engineer at Rackspace

“

Very good Linux skills. Great coworker in general. A good asset on any team.

Micah

VMware Technical Support Manager at Rackspace

“

Tom is an invaluable resource to any team. I've had the pleasure of working with Tom over the years in a technical and leadership capacity. His willingness to dive in and collaborate has helped drive unique solutions and develop those around him.
