

Tom Kodesh

Linux Systems Administrator

About Me

Hello! I'm Tom Kodesh. I am passionate about Linux and Linux systems. A skilled **Linux engineer** with demonstrated experience configuring, managing and supporting a variety of enterprise Linux server applications and services. I am a quick learner and a team player that can capitalize on the strengths of others while sharing my own strengths to maximize productivity and timely deliverables.

References

Joe

Technical Support Manager at Rackspace

“ Tom Kodesh is a high performing individual with self-discipline and self-motivation as a personal driver. I would add Tom to my team if the opportunity presented it's self again. His knowledge as a Linux Engineer exceeds many of his peers and he still works with those needing to bridge their OS knowledge gaps. A true team player and an asset to any team that takes him on-board.

Mark

Maintenance Team Linux System Administrator at Rackspace

“ Tom is a great asset and all-star to any team! Highly motivated, knowledgeable, and self disciplined. When a question or issue arose I did not hesitate to ask Tom for assistance as he is very approachable and willing to help.

Ben

Linux Enterprise Support Engineer at Rackspace

“ Very good Linux skills. Great coworker in general. A good asset on any team.

Micah

VMware Technical Support Manager at Rackspace

“ Tom is an invaluable resource to any team. I've had the pleasure of working with Tom over the years in a technical and leadership capacity. His willingness to dive in and collaborate has helped drive unique solutions and develop those around him.

Sera

Linux System Administrator at Rackspace

“ It is my distinct pleasure to wholeheartedly recommend Tom. In the four years that I have worked with him, Tom has been both mentor and colleague. Tom is always willing to go the extra mile on behalf of our customers. He is among the hardest workers I have ever known. His Linux skills are formidable, and he is happy to share his knowledge with others. Any organization would be supremely lucky to count Tom among its ranks.
